Designated long-term evacuation sites are not announced as those decisions are impacted by situational circumstances. The purpose of evacuation drills is to prepared the community for an organized evacuation in case of an emergency.

Each drill or test is documented with the description of the event, including the date and time and whether or not the event was announced. A communication to the community will be made highlighting emergency procedures and evacuations in conjunction with at least one test per calendar year.

Roanoke College will issue a Timely Warning when a crime is reported to or brought to the attention of the office of Campus Safety or other Campus Safety authorities and when that crime represents a serious or ongoing threat to the safety of members of the Roanoke College community.

Timely Warning Notices are sent using campus-wide e-mail for incidents or situations that do not pose an immediate threat, but which require a timely notice in compliance with the Clery Act. Under the Clery Act, a crime is reported when a victim, witness, other third party or even the offender brings it to the attention of a Campus Safety Authority or local law enforcement personnel. It does not matter whether or not the individual(s) involved in the crime or reporting the crime are associated with the institution. If a Campus Safety Authority receives the crime information and believes it was provided in good faith, they will document it as a crime and provide the report to the Office of Campus Safety. In “good faith” means there is a reasonable basis for believing the information is not hearsay or rumor. Campus Safety Authorities are not responsible for investigating crimes. All investigations and crime classifications are the responsibility of sworn law enforcement personnel.

There are two classifications of individuals who, although they have significant responsibilities for students and campus activities, are not considered Campus Safety Authorities under Clery: Pastoral counselors and professional counselors. Although pastoral counselors and professional

counselors do not have to report crimes brought to their attention while serving in an official capacity, they are encouraged to inform their clients of the procedures to report crimes on a voluntary and confidential basis for inclusion in the annual crime statistics.

Silent Witness Program

Community members wishing to remain anonymous and report information about criminal acts or suspicious activities on campus can do so by using the Silent Witness Form found at <https://webforms.roanoke.edu/silent-witness> (login required) or by using the link found on the Campus Safety website, <https://www.roanoke.edu/safety>. An individual using the program supplies information on an electronic form. That confidential information is then routed via e-mail directly to the Campus Safety Office for follow-up investigation or appropriate action. This information may be included in the crime statistics.

Campus Crime Statistics Geography

The statistical data reported for on-campus offenses and all discipline referrals are compiled from records maintained by the Campus Safety Office, the Student Life Office and the Salem Police Department. Data for public property offenses may be obtained from the Salem Police Department. The Clery Act defines the location categories used.

On-Campus – Any building or property owned or controlled by the institution within the same reasonably contiguous geographical area and used by the institution in direct support of, or in a manner related to, the institution’s educational purposes, including residence halls.

Any building or property that is within or reasonably contiguous to paragraph (1) of this definition, that is owned by the institution but controlled by another person, is frequently used by students and supports the institutional purposes.

Residential, On-Campus Housing Facility – Any student Housing facility that is owned or controlled by the institution, or that is located on property that is owned or controlled by the institution, and is within the reasonably contiguous geographic area that makes up the campus, is considered an on-campus student housing facility.

Public Property – All public property such as streets, thoroughfares, sidewalks and parking facilities within the campus or immediately adjacent to the campus.

Non-Campus – Any building or property located off campus and owned or controlled by a student organization officially recognized by the College, or any building or property owned or

controlled by an institution that is used in direct support of, or in relation to, the institution's educational purposes, is frequently used by students, and is not within the same reasonably contiguous geographic area of the institution.

The criminal offenses are classified using the FBI's Uniform Crime Reporting System definitions. The reader should keep in mind that some crime victims may choose not to report offenses to campus or local law enforcement authorities and that violations listed may result in both arrest and disciplinary referral for the same offense. Other types of unacceptable conduct, such as theft and vandalism, occur on college campuses. All criminal activity is detrimental to the College community, and strong measures, including dismissal, are taken against offenders.

Roanoke College Annual Fire Safety Report 2024

This report is published by Roanoke College in compliance with the Higher Education Opportunity Act of 2008 and applies to student housing at the College. The Annual Fire Safety Report must include the three (3) past years of data for 2021, 2022 and 2023. The Annual Fire Safety Report Notice of Availability is distributed to all students, faculty and staff by October 1st of each year. The Annual Security Report is also distributed by October 1st of each year. These reports can be found on the Roanoke College website at https://www.roanoke.edu/inside/a-z_index/campus_safety/reports and a paper copy of the reports can be obtained at the Campus Safety Office, located at 9 North College Avenue, Salem, VA.

On Campus Housing Fire Safety Equipment

Roanoke College has twenty-five student residence halls. Fire alarm systems are networked and monitored 24/7 at the Office of Campus Safety Communications Center or by a third party, off-site central monitoring station. Campus Safety Officers and the Salem Fire Department are immediately dispatched upon the activation of an alarm. Campus Safety Officers are in communication with the local 911 dispatch center and can advise the fire department of the situation during a response. The Office of Campus Safety is to be notified of any fires that have occurred for the inclusion of the report.

Supervised Fire Drills

Fire and evacuation drills are conducted in residence halls twice in each of the Fall and Spring semesters (four times per year). The drills are supervised and conducted by the Office of Campus Safety and the Office of Residence Life. Students must participate in the fire drills and it is considered a violation of the College conduct code to not evacuate during a drill.

Evacuation Policy & Procedures

All students must evacuate a residence hall when a fire alarm sounds. The Residence Life & Housing staff (RAs) living in each hall assist in the evacuation process. Residents are instructed on the location of the assembly area for their hall by the RA staff. Residents are not permitted to re-enter the building until the “all clear” is given by the Fire Department and Campus Safety Officer on scene. Should weather conditions be inclement, or the situation prohibits a timely re-entry, evacuated students will be temporarily relocated to another campus building.

Evacuation routes are posted on the back of the door of each residence hall room. Students should become familiar with multiple evacuation routes out of their building, and leave from the nearest safe exit. Students evacuating should take only important personal possessions within their immediate vicinity, as well as shoes and outer clothing suitable for the weather. Elevators are not to be used during a fire alarm evacuation of the building.

Residence Life & Housing staff and students are to assist individuals with disabilities. If someone cannot be evacuated due to an injury or disability, notify the first emergency responder you encounter as you leave the building.

All fires in residence halls must be reported to the Office of Campus Safety and the Office of Residence Life & Housing, including fires that may have been extinguished prior to the arrival of the Fire Department.

Fire Safety Violations & Prohibitions

The Student Handbook of Roanoke College contains information on residence hall policies. Each First-Year student is given a hard copy of the handbook when entering Roanoke College. The Student Handbook is also located on the college web page under Students. Residence Life & Housing staff conduct health and safety inspections of residence hall rooms on a periodic basis each semester. Listed below are fire safety guidelines and prohibitions.

- Items cannot be hung or attached to ceilings or other horizontal surfaces above the head;
- Items cannot be draped over electrical outlets, smoke detectors, lamps or other items with potential to ignite due to excessive heat exposure;
- Nothing may be placed on sprinkler pipes or within 18” of any sprinkler head;
- Electric outlets and extension cords may not be overloaded;
- All extension cords must be UL (Underwriter Laboratory) certified and should not run across open areas of the floor. Extension cords used for refrigerators and air conditioners must be of heavy-duty type with circuit breakers;
- Surge protectors should be UL approved. Instead of extension cords, use surge protectors for multiple plugs. Surge protectors should not be linked to other surge protectors, or be placed underneath carpets.
- The smoke detector battery must remain in the smoke detector. In the event the battery needs to be replaced, the student should contact a Residence Life & Housing staff member immediately.
- Burning of candles and/or incense is prohibited in residence hall rooms or common areas. Evidence of violations will result in disciplinary action and immediate removal of all candles.
- The use of halogen and multi-colored floor lamps is prohibited in residence hall rooms and/or common areas. Having such a lamp will result in disciplinary action and immediate removal of the lamp.
- No flammable materials or equipment may be stored in residence halls (camping stoves, lanterns, etc.).
- Live Christmas trees are not allowed in residence halls. Residence Life & Housing staff in each building will provide decoration guidelines to residents.
- Keep room clear of fire hazards that are created by the accumulation of potentially flammable materials such as newspapers, magazines, boxes, etc.
- Smoking and/or vaping is not permitted in any residence hall.

- Fireworks, flammable liquids or other hazardous materials are not permitted in residence halls.
- Tampering with fire alarms, fire protection systems or deliberately causing a false fire alarm are violations of the Student Conduct Code and students found in violation are subject to strict sanctions.

Fire Safety & Training

Residence Life & Housing professional staff and student resident advisors live in residence halls and supervise the College's residence halls. These employees receive annual fire safety, evacuation and fire extinguisher training prior to residential students arriving for the fall semester. The staff hold educational floor meetings when students arrive on campus, at which fire safety and evacuations procedures are covered with residential students. Fire evacuation routes and procedures are posted on the back of the door of each residence hall room.

Fire safety is reviewed with new employees during their orientation period. Fire safety is also addressed in the Faculty and Staff Handbooks. Specialized training is routinely provided to service employees who work in high-occupancy campus buildings and residence halls. Each department manager is responsible to see that the fire safety guidelines are followed in their respective areas.

The Office of Campus Safety and Physical Plant Office maintain an active working relationship with the City of Salem Fire Marshal and consult with that office on matters of fire safety when questions arise. The Fire Marshal's office conducts periodic inspections of campus facilities.

Plans for Future Safety Improvements

Over summer 2024, significant upgrades were made to fire control panels in buildings across the campus. As part of this upgrade to replacing aging fire alarm infrastructure, new cellular dialers were also installed on some buildings. This work will continue throughout calendar year 2025.
